SUMMARY

Full Stack **Web & App Developer** experienced in **RESTful APIs**, web optimization, **SEO**, and scalable cloud solutions (**AWS, GCP**). Skilled in **CI/CD, Docker, Kubernetes, Terraform**, **Microservice**(Event Driven Architecture) , data visualization with **Power BI & Tableau** and **N8N automations**. Adept with **React, Next.js, Node.js, and both SQL/NoSQL databases**-delivering robust, user-friendly digital products

EDUCATIONAL BACKGROUND

Degree	Institute	Year	%/CGPA
BCA (Bachelor of Computer Application)	Maharaja Surajmal Institute, Indraprastha University	2028	8.77
AISSCE, CBSE (Class XII)	Lovely Public Sr. Secondary School, Delhi	2024	80%
AISSE, CBSE (Class X)	Lovely Public Sr. Secondary School, Delhi	2022	87%

ACADEMIC ACHIVEMENTS

Competitive Exam (2024)	• Secured **377** position among 6500 students in Indraprastha University CET 2024
CS Board Exam (2024)	• Scored **96/100** in Python and SQL in Class 12 (CBSE)

EXPERIENCE

Development	
Frontend Development	• Built responsive, high-performance interfaces using **React.js**, **React Native**, **Next.js and Ejs** • Used **Redux** and advanced state management tools to boost performance and maintainability in dynamic apps
Backend Development	• Built secure, scalable **REST/GraphQL APIs** with, **Node.js, AWS/GCP, Docker, Kubernetes, Kafka and EDA** • Implemented **Redis** for session caching, rate limiting, and AI context to boost performance and reliability
System Architecture	• Built scalable, reliable systems on **AWS/GCP** with expertise in cloud architecture and **System Design** • Skilled in **monitoring**, **CI/CD**, **Terraform** and optimizing backend infrastructure for high performance
Feature Integration	
AI & Authentication	• Integrated **Gemini**, **Hugging Face and Openrouter** APIs for AI-powered chat assistance and image generation • Configured secure authentication using **Clerk**, **custom SSO and Gmail/GitHub APIs** for seamless user logins
Payments & Email	• Integrated **Stripe, Polar** and **Paypal** to enable secure and smooth payment flows in applications • Implemented OTP verification and alerts via email and SMS using **Nodemailer**, **AWS SES and Twilio**
Deployment	
Version Control	• Used **Git and GitHub** for version control, issue tracking, and collaborative development • Deployed Websites & mobile apps with **CI/CD** via **VM's, Serverless functions, load balancer** & **Expo EAS**

PROJECTS

Dionysus | *Next.Js, NeonDB, Stripe*	• **Built enterprise GitHub SaaS** with **Next.js 15**, AI code analysis, real-time collaboration, and team management • **Architected** full-stack platform with tRPC APIs, **PostgreSQL**, Clerk auth, Stripe payments, and admin dashboard • **Deployed production system** with **CI/CD** pipelines, monitoring, automated testing, and enterprise security controls
Dr. Dwar (SIH) | *React Native, NexonDB Razorpay*	• **Built comprehensive healthcare platform** with **React Native/Expo** apps, **Node.js backend**, and **PostgreSQL Db** • **Dual-app platform** with patient/professional interfaces, offline functionality and telemedicine features • **Implemented enterprise solution** with **HIPAA compliance**, **role-based access**, and **multi-language support**
TempMail | *FastAPI, Docker, NodeJS*	• **Built temp email platform** with FastAPI, mail.gw API, MX validation, and disposable domain detection • **Shipped browser extension** for Chrome/Firefox/Edge with one-click creation and auto-fill integration • **Deployed production stack** with Docker, REST APIs, real-time polling, and multi-browser store publishing
OAuth SSO | *NodeJs, TursoDb, Docker*	• **Built OAuth/SSO gateway** with Clerk auth, multi-provider integration, and **JWT** session management • **Implemented secure login features** like Google multi-account selector, breach detection, and **2FA** authentication • **Deployed enterprise SSO solution** with **PKCE flow, token rotation, audit logging,** and security controls

PROJECTS & CERTIFICATIONS

Projects / Certifications	• Excel skills for business - Goldman Sachs (Link) • React and Redux - Knowledge Gate (Link) • MERN Stack - Knowledge Gate (Link)	• Github Foundation - Github (Link) • Mongodb Relational Model - Mongodb (Link) •Tableau Dashboard - HR Report (Link)

EXTRA-CURRICULAR ACTIVITIES & SKILLS

Skills	• **Hard Skills** - Advanced Excel, Power BI, Tableau, Python, SQL, Java, C, Full Stack Web Development (React.js, Next.js, Node.js, Express), SQL & NoSQL Databases, State and API Management (Redux, Axios, Redis, AWS API Gateway, Nginx, Postman, Docker, Kubernetes, Kafka, Terraform), Cloud Services (AWS, GCP, CI/CD pipelines), Version Control (Git, GitHub), automations (N8n, Make.com)UI/UX Design (Figma), Data Structures & Algorithms (DSA), and Design Tools (Canva, Adobe Express) • **Soft Skills -** Communication, Team Work, Problem-Solving, Adaptability, Leadership, Strategic Thinking
Hackathon Participant	• Participated in various Hackathons, building full stack apps in fast-paced, team-based environments • Gained hands-on experience in problem-solving, rapid prototyping, and real-time collaboration under pressure
